

Rules and Regulations for M.Sc. Thesis

1. Student opting for thesis option must have a minimum CGPA of 3.00/4.00 upon completion of six graduate level courses chosen according to CASE course selection policy.
2. Student opting for thesis must submit Topic approval form (MTH1) to CASE office prior to start of research work. This form will also contain the name & signatures of the thesis advisor and the research committee members.
3. Topic of the research must be selected in consultation with the thesis advisor.
4. Rules for selection of Advisor:
 - 4.1. The Advisor should hold a M.Sc. / Ph.D. degree.
 - 4.2. The Advisor should be from CASE Permanent Faculty or otherwise from some other institution/company.
 - 4.3. If the Advisor is not from CASE permanent faculty then his/her appointment has to be approved by Postgraduate Research Committee and a Co-Advisor from the CASE faculty is to be assigned.
5. Upon submission of (MTH-I), a meeting of the research committee will be convened which will evaluate the thesis proposal and give formal approval of the topic for start of M.Sc. research work.
6. The thesis committee will monitor and evaluate the thesis progress on regular basis. During the research for M.Sc. thesis a student will be required to request research Committee meeting at least once.
7. Upon Completion of the research work as approved by student's advisor, formal defense of the thesis will be requested by the student by submitting form (MTH-II) to the department.
8. At least 4 weeks prior to proposed defense date, student will provide hard copies of his thesis to 3 research committee members, his/her advisor and CASE office.
9. At least four Committee members including thesis supervisor should be present at the time of defense.
10. Student will get two chances to defend his/her M.Sc. thesis. Failure in the second attempt will be considered final and student will have to pursue non-thesis option in order to satisfactorily complete his/her degree requirements.
11. After the final thesis defense, student will submit form (MTH-III) to the computer engineering office bearing signatures of the entire research committee member and his/her advisor.
12. Student must submit two hardbound copies of his/her thesis (according to format specified by CASE) to CASE office for keeping in the library.
13. As per HEC guidelines for M.Sc. degree (for thesis option only) the course work will be minimum 21 credit hours and the thesis work will be minimum 06 credit hours, applicable from February 2006 onwards.
